Senior Year 2018-2019

Seniors, Take Advantage of The Counseling Center!

The Counseling Center is a very important place for high school students, especially seniors! Scholarship news and applications, as well as several informative publications can be found in here!

The Counseling Center can help you with anything you might need in preparing for graduation as well as your first year of college. Seniors - remember that Ms. Gordon and Mrs. Reschke are here to answer any questions you might have. The Scholarship Newsletter is published each month of your senior year to help you keep track of the scholarships that are available in our area as well as elsewhere and will be sent to your school email address.

**Links to scholarship applications are active.** We try very hard to keep seniors informed of any opportunities or special programs for which we receive information. In addition to reading the newsletter each month, students should be checking their emails for the daily announcements and searching online for other opportunities that might be available in their area of interest. We want your senior year to be as productive as possible, so please take advantage of us!

Remember to fill out the FAFSA online starting October 1st!

AES Engineers Scholarship

The AES Engineering Scholarship Program believes that achieving a high grade point average should not be the only criteria for determining who deserves financial assistance. For this reason the AES Scholarship for 2018-19 will be awarded on the basis of character, as determined by evaluated essays that are submitted. Students must submit an essay of between 500 and 1000 words in answer to the following question: *When you look back on your life in 30 years, what would it take for you to consider your life successful? What relationships or accomplishments will be important on this journey?*

The scholarship amount is $500.00. For more information go to: [www.aesengineers.com/scholarships.htm](http://www.aesengineers.com/scholarships.htm). **Deadline is October 6th, 2018**

YoungArts has honored more than 20,000 young artists with over $6 million in monetary awards, facilitated in excess of $150 million in scholarship opportunities and enabled participants to work with some of the most distinguished master artists in the world. Applicants may be eligible for the following benefits:

- Cash awards of up to $10,000
- Access to college scholarships, just by registering online
- Master classes with world-renowned artists
- Perform and exhibit in the most prestigious venues in the country
- Become eligible for nomination as a U.S. Presidential Scholar in the Arts

You must be 15-18 years old, 10-12th grade. Prepare your audition/portfolio and submit online. See [www.youngarts.org/apply](http://www.youngarts.org/apply) **Online application due by Oct 12, 2018 11:59 pm EST.**

Online application must be submitted between October 1st and November 29th 2018, 4:00 p.m. MST.
YOUR SENIOR YEAR AT A GLANCE

All Year—Keep taking classes that challenge you. Most colleges require 4 years of English, at least 3 years of social studies (history, civics, geography, economics, etc.), 4 years of mathematics, and 4 years of science; and some require 2 years of a foreign language.

Work hard all year; second-semester grades can affect scholarship eligibility.

Stay involved and seek leadership roles in your activities. Most scholarship applications ask you to list activities/clubs you are involved in. Take advantage of opportunities for service!

Fall/Winter—Meet with Ms. Gordon to see you are on track to graduate and fulfill college admission requirements.

If you haven’t done so already, register for and take exams such as the SAT or ACT for college admission.*

Check with the colleges you are interested in to see what tests they require.

Apply to the colleges you have chosen. Prepare your applications carefully, including typing information where applicable. Follow the instructions, and PAY CLOSE ATTENTION TO DEADLINES!

Well before your application deadlines, ask your counselor and teachers to submit required documents (e.g., transcript, letters of recommendation) to the colleges to which you’re applying.

To prepare to apply for federal student aid, be sure to get a FSAID so that you can complete your FAFSA application after October 1st 2018. One of your parents must also get a FSAID.

After October 1st, complete and submit your Free Application for Federal Student Aid (FAFSA), along with any other financial aid applications your school(s) of choice may require. You can complete the FAFSA online at www.fafsa.ed.gov. You should submit your FAFSA by the earliest financial aid deadline of the schools to which you are applying, usually by early February.

If you have questions about the federal student aid programs or need assistance with the application process, call 1-800-433-3243 or the TTY for the hearing-impaired, 1-800-730-8913.

After you submit the FAFSA, you should receive your Student Aid Report (SAR) within one to four weeks. Quickly make any necessary corrections and submit them to the FAFSA processor.

*REMEMBER: Register for SAT test in advance and give yourself time to prepare appropriately! See the registration dates on page 2. If you have difficulty paying a registration fee, see your school counselor about getting a fee waiver.

Prudential Spirit of Community Awards

The Prudential Spirit of Community Awards was created in 1995 to recognize students in the middle and high school grades who have demonstrated exemplary community service. These prestigious awards, sponsored by Prudential Financial in partnership with the National Association of Secondary School Principal’s (NASSP) are presented annually on the local and state level. State level winners are awarded $1,000 and national winners are awarded $25,000. If you have shown outstanding volunteer service in your community, and are interested in this opportunity, please go to: www.nassp.org/spirit and click the “Apply Now” link. MVHS has had winners in the past! This is an excellent program to recognize the efforts of our youth!

Application deadline is November 6, 2018. Don’t delay!

ALERT ESSAY

Write an essay about a personal encounter you or someone you know has had with drug and/or alcohol abuse. In your essay explain how the situation was dealt with, what you learned from it, what others can learn from the experience, and what was right or wrong (in your opinion) about the way the incident or problem was handled. Scholarship essays are judged in the same way that essays written for a high school English class would be: thesis statement, supporting content, grammar, punctuation, etc. If your essay is chosen to be published in Alert Magazine, you will win $500. For more details concerning this essay, please contact the counseling office. For more info go to: www.alertmagazine.org.

**Ways in Which College is Different From High School**

Students who understand the key differences and learn how to bridge the gap between high school and college should have a greater chance for success.  

**In high school...**

Your teachers constantly remind you of due dates and upcoming tests and quizzes.

Students basically attend school every day for the same hours -- so there is quite a bit of structure and sameness to your days.

Students often spend time in class completing assignments to fill class time -- what some students refer to as "busywork."

Teachers often teach to the test -- typically feeding students all the information needed to study for exams.

Many students could do very well academically by simply studying an hour or two a week -- or by cramming for a test the night before.

**While in college...**

Once the professor lists the dates on the course calendar or syllabus, he or she assumes students are capable of obtaining this information on their own without the constant reminders.

Classes typically meet only two or three times a week and students have large gaps between classes, leading to very little structure -- and often a bit too much freedom that some students cannot handle well.

The bulk of class time is spent taking notes or participating in discussions -- not completing homework or other graded assignments.

Professors often lecture about much more material than you'll ever be tested upon -- for the sake of knowledge -- though you will still need to understand both what material will be tested and the best way for you to study it.

The best students cite the importance -- and need -- to study and prepare for classes on a daily basis. The standard rule is students need to spend three hours of work outside of class for every hour spent in class.
### In high school...

Your teachers are both subject experts and trained educators and in theory know the latest and greatest methods to teach the material.

Your teachers keep a watchful eye on your progress and will contact you or your family if your grades are faltering.

Your reading assignments are fairly light, and some is done in class -- whether through individual reading or lecturing straight from the book.

Students are often spoon-fed all the information, with a focus on facts and memorization.

Students who are struggling can get extra credit for completing additional assignments, improving your overall grade.

Your classes are generally small -- often with no more than 35 students in a class.

Students follow one of several tracks, and your guidance counselor makes sure you are on the path to graduate.

All your teachers are full-time employees of the school (except for student-teachers) and must be state-certified.

Clocks and bells are everywhere, guiding you from one class period to another -- perhaps even with warning bells -- and no two classrooms are that far apart.

For students who are sick or otherwise excused, teachers will often provide make-up exams.

### While in college...

Your professors -- many of whom hold doctoral degrees -- are experts in their fields and trained researchers (who must continue to publish to stay academically qualified to teach), but their teaching methods and lecture styles may be completely different from anything you have experienced.

Your professors may well be aware of your progress -- or lack of it -- but most expect their students to initiate discussions about grades and/or seek assistance -- all of which is done during your professor's office hours.

You can expect a very heavy load of reading -- all of it done outside of class. Some of the reading may be discussed in class, but even without discussing it, the professor may choose to test you on it.

Students are expected to think -- and learn -- beyond the facts to develop complex understanding of information and theories from multiple sources.

Students who are struggling are encouraged to seek extra help and tutoring, but very few college professors offer any type of extra credit.

Students can choose to attend classes or not, often with no overt penalties from the professor. Some professors DO take attendance, and some also have a strict attendance policy.

Some of your general-education classes can range from 100 to 500 students (or more) -- or even be attended online.

Students meet with an academic adviser once a semester, but the burden to take the right classes and be on track to graduate is entirely in your hands.

You’ll have all sorts of teachers, from full-time faculty to adjunct (part-time) faculty to graduate assistants (teaching assistants/TAs).

You must manage your time and sometimes travel all the way across campus within a short period to make it to your next class on time -- and there are no bells or clocks, and each professor goes by his or her own time.

Few professors are willing to give make-up exams to students -- regardless of the excuse. If you must miss a test -- for whatever reason -- it’s your responsibility to contact the professor to see what can be done.

### Final Thoughts on the Differences Between High School and College

The faster you can comprehend -- and adjust to -- these differences between your high-school educational experience and your college education, the faster you'll adjust to the pace of college life, and the better your chances for academic success.
